## About Me

Being in my 4th year as an engineering student specialized in Network and Telecommunications Systems, I would like to develop my skills and my strategies in Network and telecommunications with professionals in the field, looking forward to achieve my goals.

## Experience

2/2021 –  
4/2021

### IT TEAM ADSELLO

As part of the IT TEAM in the company, I have taken 3 big projects involving installing a GLPI platform in an ubuntu server as well as Installation and configuration AD, DNS, DHCP, File shared and permission GPO in windows Server, and finally implementing and installing a wifi network with ALTAI C1N antennas.

8/2021 –  
11/2021

### IT TEAM ADSELLO

In my 2<sup>nd</sup> experience in the company, I have taken a migration project of a .NET windows program to an open source platform « odoo », in which I have installed odoo in an ubuntu server, the next step was creating 8 different modules from scratch using PYTHON and XML.

Present

### Freelance

As a Freelancer, I have worked with many clients in many projects, going from giving IT support of ubuntu servers to working in the openERP software « odoo » creating custom modules to the client's needs.

2018 - 2023

## Studies

### UAE – National School Of Applied Sciences of Tetouan Engineer in Network and Telecommunications Systems

2 years of preparatory classes in the ENSA of Tetouan, and 2 years of engineering cycle in GSTR(Network and Telecoms), a very varied cycle with courses like java, C, SQL and python programming, Radio Telecoms, Antennas, signal processing, cellular and wireless Networks, etc.

## Certificates and extracurricular

- Certificate in Python on SoloLearn
- Google E-commerce Certification
- Certificate of participation in the French Institute in journalism
- Representation of Morocco in The UN General Assembly held in turkey
- Certificate of participation in the debates on forced displacement of refugees by the UN High Commissioner of Refugees
- Certificate of participation in the INNOVATION CAMP by Injaz al maghrib

## Skills

### Creativity

UNIX/Linux – Windows

PYTHON

CCNA

C#

XML

Virtual Machines

## Languages

English

Spanish

French

Arabic
